**History**

**GRG Technologies** was originally formed in 1991. Our key management, design, mold making and production personnel have in excess of 100 years of combined experience in the specialty composites industry. We are one of the longest operating manufacturing entities in the industry, and in 2012 we relocated to an updated 40,000 sq. ft building.

**Projects completed to date: 3,300+    Combined value: \$25,000,000+**

**Market**

Our normal geographic market is the eastern half of the United States, however we occasionally furnish products for projects in the western states, as well as internationally. We have sales representatives, but also sell direct if needed.

**Project Sampling**

We have produced numerous diverse specialty fabrications over the years. These include major Hotels, Consumer Specialty Stores, Federal and State Buildings such as Airports, Rail Service and Courthouses, Major Universities, Hospitals, Large Retirement Communities, Office Buildings, Banks and Shopping Malls. Our products on these projects range in value from as little as a few thousand dollars to as much as a million dollars. Some of our customers and projects include:
